INFORMATION DISCLOSURE STATEMENT UNDER 37 CFR § 1.97

In compliance with 37 CFR § 1.56, the references A - AAAA listed below and on the attached Information Disclosure Citation are being brought to the Examiner's attention for consideration in connection with the examination of the above-identified patent application. Copies of the cited documents are enclosed.

We are unable to locate a copy of reference MM. However, this reference was cited in connection with the prosecution of Application Serial No. 09/962,955, now issued as Patent No. 6,933,280 on 8/23/2005, and can be found therein.

Attached hereto is a check for \$180 to cover the fee for submitting this citation after receipt of the first office action, under 37 CFR 1.97(d). Applicant submits that extra diligence and coordination with the inventors to produce a reasonably comprehensive list of all known closest art required more time than initially anticipated, and then preparation for submission of this citations was further delayed for funding reasons and therefore not completed until after the date of the 1/05/2007 office action.

Applicant submits that the references cited herein taken alone or in combination neither anticipate nor render obvious the present invention. The listed references relate to the general field of the disclosure and these citations do not constitute an admission that the references are relevant or material to the claims; they are cited only as constituting the closest art of which the Applicant is aware.

EXPRESS MAIL CERTIFICATE (37 C.F.R. § 1.10)

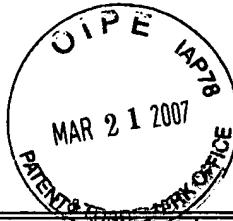

I hereby certify that this correspondence, together with all papers and fees listed as attached or enclosed, are being deposited on the date indicated herein with the United States Postal Service "Express Mail Post Office to Addressee" service Express Mail #EV956121698US with sufficient postage, addressed to the Commissioner of Patents and Trademarks, PO Box 1450, Alexandria, VA 22313-1450.
